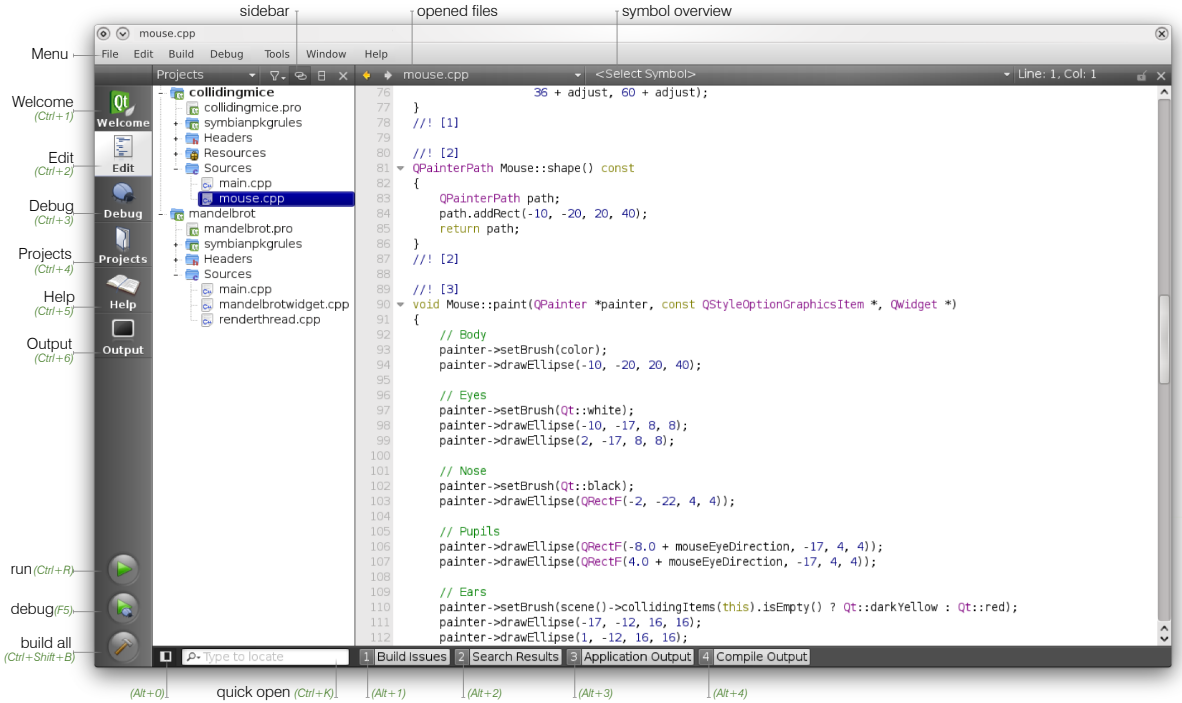
Qt Creator reference card



Mode

Ctrl+1	activate welcome mode
Ctrl+2	activate edit mode
Ctrl+3	activate debug mode
Ctrl+4	activate projects mode
Ctrl+5	activate help mode
Ctrl+6	activate output mode
Esc	go back to code editor
Esc,Esc	close all secondary windows in editor mode

File

Ctrl+N	create new file
Ctrl+Shift+N	create new project
Ctrl+O	open file
Ctrl+S	save current document
Ctrl+Shift+S	save all documents
Ctrl+W	close current document
Ctrl+Shift+W	close all documents

Document navigation

Ctrl+Tab	previous document in history
Ctrl+Shift+Tab	next document in history
Alt+←	go back
Alt+→	go forward

Editor layout

Ctrl+E,2	split
Ctrl+E,3	split side by side
Ctrl+E,0	remove current split
Ctrl+E,1	remove all splits
Ctrl+E,O	go to other split

Quick open

Ctrl+K	activate locator
<text>	files in any project
l <number>	line in current document
m <text>	methods
c <text>	classes
: <text>	classes and methods
? <text>	help index
o <text>	open documents
f <text>	files in file system
a <text>	files in any project
p <text>	files in current project

Editor

Ctrl+Z	undo
Ctrl+Shift+Z	redo
Ctrl+X	cut
Ctrl+C	copy
Ctrl+V	paste
Ctrl+A	select all
Ctrl++	increase font size
Ctrl+-	decrease font size
Alt+V,Alt+I	open document in external editor
Alt+V,Alt+V	toggle vim-style editing

Code editor

Ctrl+I	auto-indent selection
Ctrl+/	(un)comment selection
Ctrl+<	collapse block
Ctrl+>	expand block
Ctrl+[	go to block start
Ctrl+]	go to block end
Ctrl+{	go to block start with selection
Ctrl+}	go to block end with selection
Ctrl+Shift+↑	move line up
Ctrl+Shift+↓	move line down
Ctrl+space	trigger code completion

Build & debug

Ctrl+B	build current project
Ctrl+Shift+B	build all projects
Ctrl+R	run project
F5	start debugging
Shift+F5	stop debugger
Ctrl+Shift+F5	reset debugger
F9	toggle breakpoint
F10	step over
F11	step into
Shift+F11	step out

Output panes

Alt+0	toggle sidebar
Alt+1	toggle build issues
Alt+2	toggle search results
Alt+3	toggle application output
Alt+4	toggle compile output
F6	next item
Shift+F6	previous item

Find & replace

Ctrl+F	find in current document
Ctrl+shift+F	open find dialog
Ctrl+L	go to line
F3	find next
Shift+F3	find previous
Ctrl+=	replace and find next

Code navigation

F2	follow symbol under cursor
Shift+F2	switch between method declaration/definition
F4	switch between header/source

Bookmark

Ctrl+M	toggle bookmark
Ctrl+.	next bookmark
Ctrl+,	previous bookmark

Help

F1	show context-sensitive help
